REPORT OF BOARD OF HEALTH.

During the past year our town has been practically free from contagious diseases, excepting chicken pox, and there have been no serious nuisances brought to our attention.

We would again remind the public of the necessity of having children vaccinated before attending school, and also would remind consumptives and others having chronic coughs of the advisability of burning their sputum, and not allowing it to dry and be blown about with the dust as that is the principle way in which tuberculosis is spread.

DANIEL G. ANNIS,		
MABEL F. M. NEVINS.		

REPORT OF THE SCHOOL BOARD,

As we cast a look backward we feel that the standard of our schools has been raised the past year, that good work has been done by both teachers and pupils. The teachers have been faithful in their calling and have labored for the moral as well as the mental advancement of the children under their care.

That all of the schools have met with that success which we had hoped for, we would not dare to assert, yet the general results have been such that we are encouraged to look forward for greater advancement in the future.

The situation in the school known as No. 7, has been a particularly trying one. For the first part of the year the attendance at that school was so large that the school-room would not accommodate the scholars comfortably. After the opening of the spring term the board decided to divide the children of the higher grades going to the morning session, and those of the lower grades to the afternoon session. During the summer vacation, plans for the relief of the district were discussed by the board, and a meeting of the parents called that their views might be obtained. It was finally thought best to engage two teachers for the school, one for the forenoon and one for the afternoon, lengthening each session as much as possible and dividing the scholars as in the spring term, but at the opening of the fall term it was soon found that the number of pupils was about one-fifth less than in the spring term, and after four weeks only one teacher was re-

tained, and the school was conducted in the usual manner. And this seems to be the best way to manage the school for the present, at least. Yet we would urge upon the townspeople to take some action for providing more room for this school.

The schools of Nos. 9 and 10 have become so reduced in numbers that the plan of conveyance was applied in the fall and winter terms. A team was engaged to convey the pupils of No. 10 to the No. 9 school room, which proved quite successful during the fall term, but as the cold weather came on the winter term did not prove to be so satisfactory. Especially, in these last named districts we feel compelled to most earnestly urge upon the parents the great need of REGULAR ATTENDANCE of the pupils at every session of the schools, there being a very large number of absences noticed in these districts.

While the School Board are endeavoring each year to secure the best class of teachers possible, very much depends upon the parents to see that all the scholars avail themselves of the benefit to be obtained by their CONSTANT ATTENDANCE.

The only change made in the text books during the past year was the exchange of the Raubs series of Grammars, for the Metcalf series. Globes were also purchased and placed in the schools.

You will notice that the "Roll of Honor" has been reduced somewhat from a year ago, in the larger number of terms especially. No doubt good reasons can be given in most cases for the falling off. Yet we believe it an object worth the striving for. The highest number of terms goes to Agnes B. Goodwin of No. 8.

By request of the State Superintendent of Public Instruction, an article is inserted in the School Warrent to see if the

Town will vote to form a Supervisory District and employ a Superintendent of Schools as provided in Chapter 77 of the Session Laws of 1899.
